

# The importance of education- Essay

Education means to study the subjects for deeper knowledge and to understand the various subjects which are going to use in our daily life. The term education is not limited to our bookish knowledge but it stands for knowledge that is obtaining and experiencing by us outside the books or classrooms. Education changes our perspectives to see life. Education in our life starts from our childhood which is began at home and education is a lifelong process which is going to end with our death or maybe if there is any [after-death life](#), it will also remain continuous there. In this topic, we will talk about **the importance of education in our life, why is education so important, why is education important to society**, the role of education in our life, what is the importance of education in our life and **the importance of school education**. The topic will boost your mind with positive thoughts by knowing the **importance of education in life**. So, let's start with the topic.

## What is Education?

It is an important tool that enables a person to know his rights and duties towards his family, society as well as his country. It develops the vision of a person to see the world and also the capacity to fight against the wrong things, like, injustice, corruption, violence, etc. It is not a secret that it is the main weapon to improve our present and future life. It also improves the confidence of a person in his life and confidence is an important key to success.

The [government](#) of every country is investing its money for the education or the citizen of the country. There are many countries which are providing education in its country at free of cost. The reason behind this is to develop its nation and the nation will grow when the people of a country are more educated. A person who is educated becomes a good citizen of his country.

## Why education is so important in our life?

Education gives us the ability to change our coming future. We can change the world in something better way where every person can enjoy his life without any tension. And for this, we must have the ability to read and write which is going to be with us by our schooling. Because most of the information can be grabbing by reading the books scriptures, Vedas, etc. consequently, the person will become literate with the help of education and the ability to read and write.

## The importance of school education

A child of today is going to become an adult citizen of the country tomorrow. And the education which is going to feed in his mind will reflect in the future. So it should keep in mind that school

education must focus on some important aspects which contribute to their roles in the journey of a person through his childhood to death.

### **Mental aspect**

We discuss many subjects in our school life such as history, mathematics, geography, politics, etc. It sharpens the mind of children. Because the child is taking the knowledge of every subject which boosts the mental level of the child.

### **Physical aspect**

The child should be encouraged for physical aspects which helps a person to tackle emergencies. Sports are good for the physical development of a person because, in any type of sport, the person goes from stages of fun and aggression where he learns how to control a situation.

### **The social aspect of the Importance of Education**

A newborn child only knows about his family and some of his neighbors. But when he moves to his school education, he meets with the other children and interacts with people outside the home which makes him a socialistic person by making new friends.

Now, we can say that school education is very much important for a child.

## **Reasons behinds the importance of education**

So now, let's discuss some reasons which will give you the idea that why education is so important:

### **Stability**

It provides stability in our daily life. You must be heard that everything can be divided but your education can't. With the help of your degree and knowledge, you can increase the chances to make your career better than others.

### **Financial security**

Education helps us with our financial security. In this era, the person with higher qualifications gets higher paid jobs which helps him to secure his future.

### **Self-dependency**

Education makes us self-dependence in our life. The education done by a person belongs to him only and with the help of this the person can feel secure and self-dependence.

### **Fulfill dreams**

No person in this universe does not have any dreams which he wants to be fulfilled. Education is one of the important elements to fulfill your dreams. So, if you want to make your dreams come true, education is a must in your life.

## **Equality**

Every person has the right to equality. If every person got the opportunity to take higher education, there are more chances that every person will earn much amount of money, and then there would be fewer gaps between the classes of persons. It helps in the matter of equality.

## **Confidence**

One of the best parts of being a successful person is our confidence. Education builds confidence in the person. You can discuss more a topic which is already known to you. You can talk about that topic much better than others with your knowledge which you have gained by your education.

## **The economic growth of the Nation**

An educated society is a reason for the economic growth of a country. With the more education rate in a country, there will be more opportunities for jobs or employment.

## **Importance of education in society**

A person who is educated can develop his moral and ethical values in a society. It helps us to spread the knowledge in society through any mode. It is known to everyone that a person with great knowledge is appreciated by all the persons in the society. It makes the bonding and relation of the person with the society. The person with a lack of education creates problems like domestic violence, poor standards of living, etc. In other ways, education allows both male and female and other educated people to create a better society. Because if there is no better education, there will be no better society than we want.

## **Conclusion**

**The Importance of education in our life-** Education gives hope to everyone for a better life as they want. It is a kind of power that works in the life of a person as magic to build it very much better as he has without education. I want to conclude my article with the words that every person should be educated so he can help the nation to make our nation proud. Thousands of crimes can be stopped with an increase in the rate of literacy. Every nation should encourage their people for education.
